

# SEBRIGHT MODEL PRE-CRUSHER

Exclusively designed to be an integral part of the compactor. Not an add-on or after thought. Ideal for **pallet, drum crushing, product destruction**, and to achieve maximum density. Built to take the abuses of high compaction forces.

Cylinder retracted / chamber loaded

Cylinder extended / material pre-crushed

Cylinder retracted / Results of pre-crushing

- Long Motor Life - T.E.F.C. (Totally Enclosed Fan Cooled)
- 5 Inch solid steel wall - with 2" thick steel guide plates on each side
- Stress designed support system. All above the chamber eliminating material from wedging in the guide tracks
- High Tech PLC driven control panel
- Option to by-pass the Pre-Crusher
- Extra heavy duty frame and ram - heavy structural plate with ship and car channel construction
- AR floor and sides (Abrasive Resistant AR 235 Alloy)
- Nylatron guide shoes; 3 shoes each side
- With a resultant ram force rating of up to 74 and 113,100#'s of compaction force, waste material is reduced to a fraction of the original volume
- Capable of crushing at one force and compacting at a different force setting
